Dear Colleagues,

It is a pleasure to invite you to participate in the 12th International Fischer Symposium on "Frontiers in Nanoelectrochemistry" which will be held at the Media Docks in Lübeck, 3 – 7 June 2012. Since its early editions in Karlsruhe, under the auspices of Prof. W. Lorenz, and then in Munich and Benediktbeuern, under the auspices of Prof. U. Stimming, the IFS has traditionally been the place where the relations between electrochemistry and other fields of science are discussed and inter-disciplinary approaches are developed. We hope to gather experimentalists and theoreticians, who are working on or are interested in the field of electrochemistry at the nanometer scale.

Scientific program: The topic of the 2012 meeting is "Frontiers in nanoelectrochemistry". Papers are solicited in the fields, including but not limited to:

- Electrochemical surface science
- Electrocatalysis
- Electrodeposition of nanomaterials
- Biological Interfacial Science and Biosensors
- Functionalized Surfaces
- Nanostructuring

The IFS is a Gordon-style conference with invited plenary lectures. Furthermore, the conference will feature the award ceremony and award lecture of the "Hellmuth Fischer Medal Award". In addition, a number of contributed presentations will be selected based on abstract submission. The conference schedule will also provide ample time for poster contributions.

Papers presented at the meeting are planned to be published in a special issue of *Electrochimica Acta*.

Confirmed invited speakers:

- Phil Bartlett (University Southampton, UK)
- Peter Broekmann (University Bern, CH)
- Karin Domke (FOM Institute AMOLF, NL)
- Yvonne Gründer (University Manchester, UK)
- Takayuki Homma (University Waseda, Japan)
- Katsuyoshi Ikeda (University Hokkaido, Japan)
- Katharina Krischer (LMU, Munich, Germany)
- Christoph Langhammer (Chalmers University, Gothenburg, Sweden)
- Serge Lemay (University Twente, NL)
- Fouad Maroun (Ecole Polytechnique, France)
- Marcel Rost (University Leiden, NL)
- Rolf Schuster (KIT, Karlsruhe, Germany)
- Shi-Gang Sun (University Xiamen, China)
- Zhong-Qun Tian (University Xiamen, China)
- Natasha Vasiljevic (University Bristol, UK)
- Shueh-Lin Yau (Nat. Central University, Taiwan)

The Hellmuth Fischer Medal was initiated in 1989 by DECHEMA in honor of Prof. Dr. Dr. h.c. Hellmuth Fischer, an internationally acknowledged scientist. Nominations should be submitted by February 29, 2012 to:

Prof. Dr. K. Wagemann
DECHEMA e.V.
P.O.Box 15 01 04
D-60061 Frankfurt am Main
Germany

International advisory board:

- Ulrich Stimming (Munich, Germany)
- Daniel Scherson (Case Western, USA)
- Jacek Lipkowski (Guelph, Canada)
- Takayuki Homma (Waseda, Japan)
- Thomas Wandlowski (Bern, Switzerland)
- Alexei Kornyshev (London, UK)
- Shi-Gang Sun (Xiamen, China)
- Timo Jacob (Ulm, Germany)

Conference venue: The 12th IFS will be held from Sunday evening 3 to Thursday evening 7 June 2012 in Lübeck, at the Media Dock conference centre. Lübeck is a beautiful medieval city located in northern Germany at the Baltic Sea and known for its rich history and cultural importance. The old town center with 1.800 medieval buildings is a UNESCO world heritage site. Media Docks is a conference centre located within 5 min. walking distance of the old town and ca 1 km from many hotels. More information on the city of Lübeck and the conference site can be found at:

Chairs:

Prof. Dr. Olaf Magnussen
Institut fuer Experimentelle und Angewandte
Physik, Christian-Albrechts Universität zu Kiel,
Olshausenstrasse 40, 24098 Kiel, Germany
Tel. xx49-431-880-5579
FAX xx49-431-880-4884
magnussen@physik.uni-kiel.de

Dr. Philippe Allongue
Physique de la Matière Condensée, Ecole
Polytechnique, 91128 Palaiseau, France
Tel. xx33-1-6933-4673
FAX xx33-1-6933-4799
Philippe.Allongue@polytechnique.edu
